Under the guidance of

Dr. Kingshuk Srivastava

Assistant Professor-SG School of Computer Science

OBJECTIVE

Using Azure logic apps to monitor recent tweets on Twitter. The app sends email notification when new tweets are posted matching a search term with complete detail of the tweet including the complete description, followers, followed by and the username as well.

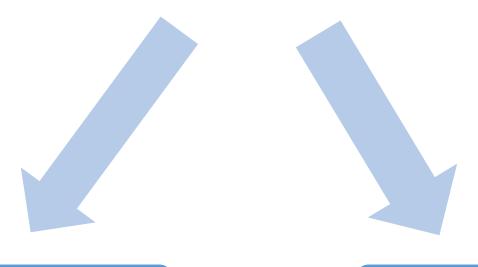

What's New?

- Detail information about the user
- At what time the tweet was done
- Complete Description of the Tweet
- Followers and Friends

TARGET AUDIENCE

Monitoring

Flow Control

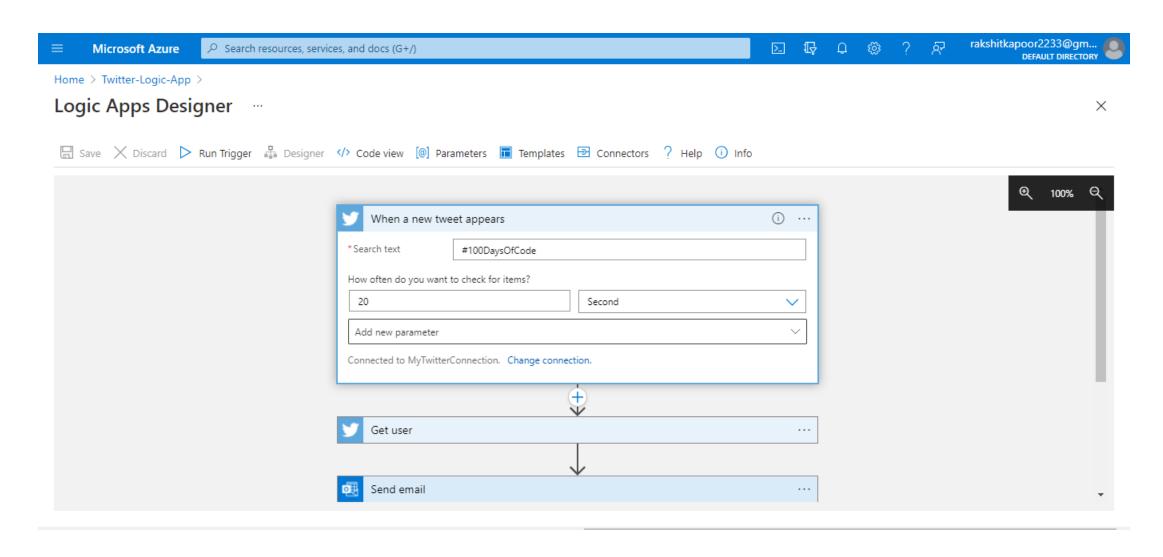

TECHNOLOGY USED

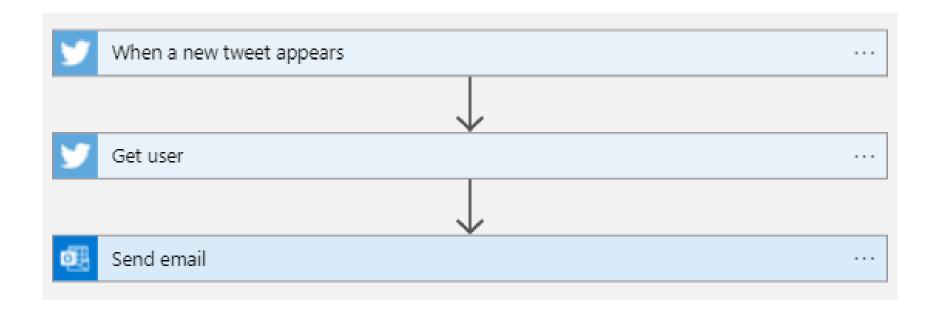

- Microsoft Azure Logic App
- Microsoft Outlook
- Twitter

PROJECT DEMONSTRATION

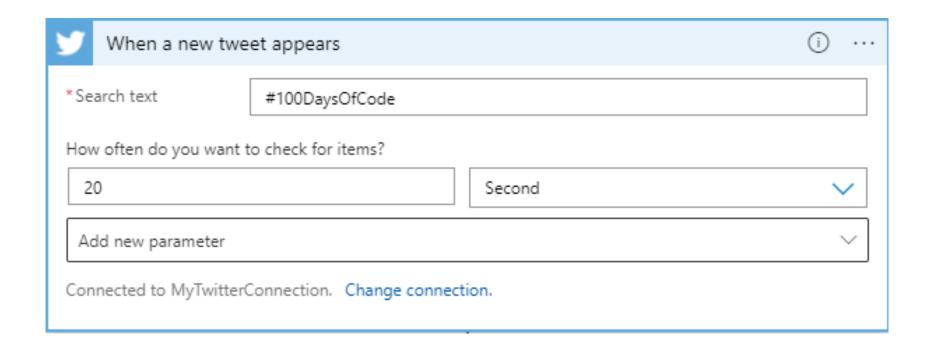

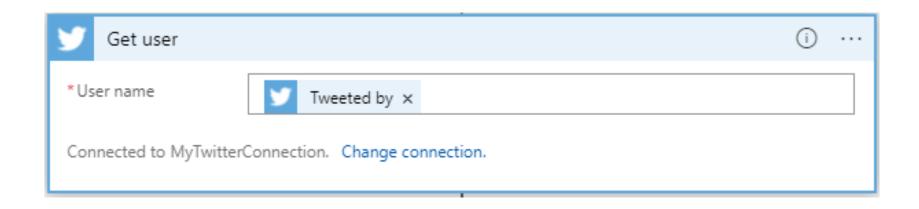

Complete Flow of Logic App

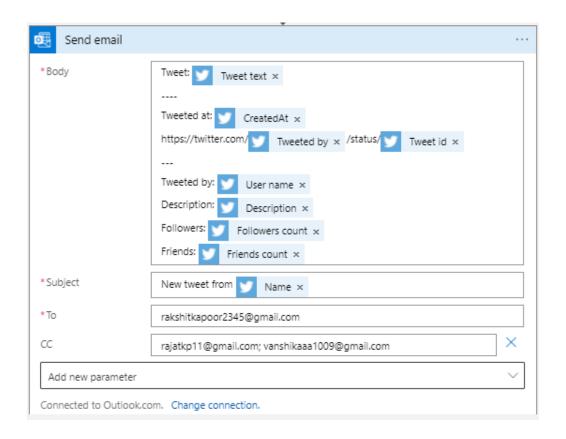

When a new Tweet appears for the #100DaysOfCode it will check for it for 20 seconds

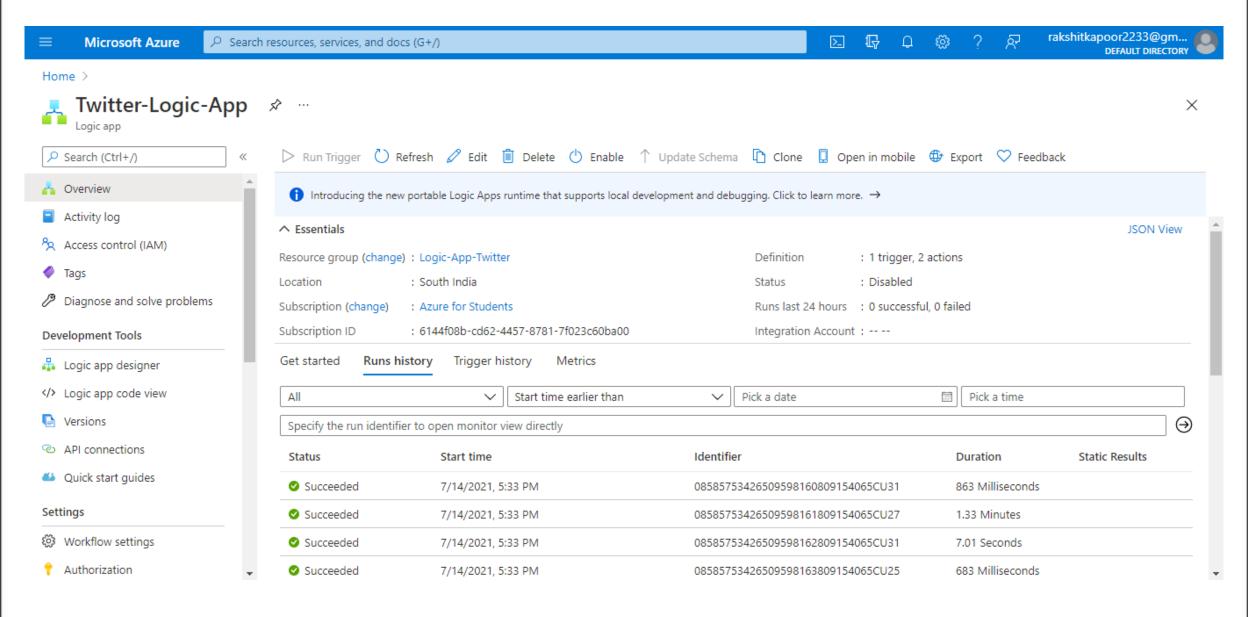

It retrieves the username of the tweet

This will send the mail to the specified person with complete details about the tweet as shown.

New tweet from #100DaysOfCode
